<p>iv) Ms. G. Prasanna Kumari, Coordinator: Helpdesk, Student Counsellor Mobile: 9908436817</p>	

09. **ROLE OF PARENTS:** Parents are important partners in the educational process. Their involvement and encouragement can help a child to excel with necessary family support and reinforcement at home.

We encourage coordination and cooperation between Parents and Teachers to establish respectful partnerships in the best interest of the students.

- a) **Be a role model for learning:** Parents are the children's first teachers. Through guidance and reminders the parents can help the children to organize their time and guide them to learn. Share interesting information from the Newspapers or Television News. Always encourage the spirit of enquiry, show interest and be open to your child's day to day problems.
- b) **Tune into how your child learns and practice what he / she learns at school:** Many children use a combination of Modalities like visual, tactile, auditory to learn and may not learn the same way as other siblings. So pay attention to how your child learns, what interests him/her and the motivation for learning should be child's internal interests not an external reward.
- c) **Set aside time to read together:** Read aloud regularly as reading does not mean reading for leisure only but also for information, analysis and synthesis of knowledge.

Reading Habit is promoted from Primary classes as a good reader becomes an independent learner, capable of critical thinking and taking decisions in a rational way. We advise you to encourage good reading habit at home which helps the students to do well academically and develop writing, vocabulary, grammar and speaking skills. Use of Dictionary, Atlas must be encouraged.

- d) **Keep TV viewing to a minimum:**

“Watching lot of TV does not give children the chance to develop their own interests and explore on their own, because it controls the agenda”

--- DIANE LEVIN, Ph.D.

However, time spent with books, toys, crafts, friends, play activities help children to develop their own interests and skills.

A review of the evidence in the Archives of Disease in Childhood says children's obsession with TV, Computers and Screen games is causing developmental damage as well as long-term physical harm.

It is important for parents to monitor the content of T.V. programmes and set viewing limits to ensure that children do not spend too much time in front of T.V. or Screen games.

10. **MEDICAL UPDATE OF A. KEZIA, STD.I-C:** Kezia has completed her treatment for BLOOD CANCER at CMC Hospital, Vellore and needs to go for periodical Medical checkups. We praise God for her recovery and a Thanksgiving meeting was held at her residence on 02.06.2016. She will rejoin her classes from this month i.e. June,2016.
11. **HELPDESK:** You may contact the **Coordinator** at the Helpdesk for any further clarification regarding the various points in this circular or other information during the School office timings. If you wish to meet the **Principal / Vice-Principals / Head Teachers / Teachers**, please note that the visiting hours are from **04:00 P.M. to 05:00 P.M.** on all working days.

We solicit your cooperation for better and effective functioning of the Academic and Non-academic activities of the school.

Yours faithfully,
J. SIKILE SCHOOL
