Most respected Madam Ms. Umagrace Sikile,

This is to thank you for allowing my wife, Satya Vani and myself, along with my nephew, Mr. Surendra Choppala, to visit you for few minutes, during our recent trip to India. Thank you for sparing few minutes out of your busy schedule for us. And also thank you for giving us your 2014-2015 Year School Book/Bulletin for me and also to my nephew.

I am going through the year book and I am so impressed about your esteemed educational system and what the Sikile Foundation is doing so much service in so many palaces in India. I still remember when your School started in 1984. I just came back from my studies at Pune during that time and I am working for my Uncle at Rajahmundry to start a Medical College.(It didn't work out) but started a School and now it is also one of the known educational institutions, having BSC Nursing College. I wanted to visit your institution in 1986 while I was working as a Cashier Accountant at Flaiz Memorial High School (Flaiz College now) at Rustumbada. But with in 7 months I got a chance to go to USA and left without visiting your School.

I am also glad to know while going through the book, that so many of your former students of your institution became Engineers, Doctors, Computer Science Masters, Philanthropists and even Politicians/Leaders, in the span of last 3 decades. I know some of them very well like, Mr. Thalluri John Rathnam and family. It was not a planned visit to see you and I just stopped by and we are so happy that we stopped by and you gave us the time to see you. If not we will never know so much of your institution and your dedicated services for the betterment of human society.

I will surely read all the articles in your Year book and learn myself, so many things. Kindly let me know, how to acquire your year book, every year, so that we will be happy to know the progress and upcoming of so many students getting quality education, in your honorable institution.

Please give our best wishes and greetings to Founder, Elder M. J. Sikile, Staff, Faculty and to all the children/Students.

May The Good Lord Bless you abundantly with good health, happiness and prosperity, as you are enlightening so many thirsty students, for knowledge and to become good citizens of India,

With lots of respect.

Raja Shaker Choppala & Satya Vani Choppala
